

Digital Mailroom Services

OFF-SITE DIGITAL MAILROOM SERVICES

Using high-volume production scanners and a combination of manual data entry and automated form classification and data capture systems, we transform hundreds of thousands of paper documents every day into useful digital information delivered quickly and efficiently to the right people at the right time.

Our digital mailroom solutions incorporate time and cost-saving efficiencies and quality improvements for inbound and outbound mail workflows, and all associated business processes. Automated form classification and intelligent data capture solutions offer time and cost saving benefits for all industries, including healthcare, banking, insurance, and transportation and logistics.

Benefits of Digital Mailroom Services

- Reduced operating costs
- Reclaimed facility space
- Improved process efficiency
- Improved process quality
- Increased security
- Greater visibility and control

Morgan Records Management specializes in the management of digital mailroom/mail center operations for companies large and small.
